Trovare soluzioni per l’arredo bagno è un’attività che impegna la nostra famiglia dal 1976. Un percorso imprenditoriale rivolto ad un mercato sempre più internazionale che ha interpretato il forte cambiamento degli stili di vita e delle abitudini individuali degli ultimi decenni. Con il progetto Noorth, presentato nel 2016 al Salone del Bagno di Milano, ci siamo posti l’obiettivo di esprimere una visione moderna, fondata sulla ricerca e l’innovazione e ispirata ai valori di originalità e coerenza. Ponendoci come obiettivo la qualità in ogni fase del processo, dal design alla produzione, dalla comunicazione ai servizi pre e post vendita, ci impegniamo costantemente per superare gli standard abituali. Dialoghiamo con professionisti diversi per linguaggio e sensibilità per offrire, nel rispetto di un’armonia complessiva, una proposta completa e differenziata. Perché il bagno è un ambiente particolare, con esigenze tecniche specifiche e allo stesso tempo desideri legati alla sensibilità individuale: importante quindi suggerire interpretazioni differenti, modulate su un pensiero comune e coerente. Obiettivo che rende l’ambiente bagno una dimensione ideale per il design e che per noi si traduce nella ricerca costante di un equilibrio tra tecnologia e artigianato, memoria e innovazione, logiche industriali e personalizzazione. La collezione prevede sistemi componibili integrati a una gamma di lavabi e accessori tra le più complete del settore, proposte basate sul rigore e la massima essenzialità formale, affiancate da pezzi iconici, caratterizzati da una forte espressività. Noorth è oggi una realtà definita, il risultato concreto di una precisa visione, un progetto sempre nuovo che ci stimola e ci entusiasma.

Since 1976, our family has been finding solutions for bathroom furniture. An entrepreneurial path aimed at an increasingly international market that has interpreted the radical changes in lifestyles and personal habits of the last decades. With the Noorth project, presented in 2016 at the Salone del Bagno in Milan, we set ourselves the goal of expressing a modern vision based on research and innovation and inspired by the values of originality and consistency. Being aware that quality is a goal to be reached in each single stage of the process, from design to production, from communication to pre- and post-sales services, we constantly work on all fronts to go above and beyond the usual standards. We talk to professionals of different languages and sensitivity to offer a complete and differentiated, but overall harmonious, proposal. As the bathroom is a particular environment, with specific technical needs and at the same time desires linked to individual sensitivity, it is important to suggest different interpretations, built around a common and coherent idea. A goal which makes the bathroom an ideal dimension for design and which, for us, translates into the constant search for balance between technology and craftsmanship, memory and innovation, industrial logics and customisation. The collection includes modular systems supplemented by one of the most complete range of washbasins and accessories in the industry, proposals based on precision and maximum simplicity supported by iconic pieces that stand out by being remarkably expressive. Today, Noorth is a definite reality, the concrete result of a precise vision, a new project that stimulates us and fills us with enthusiasm.

THE STORY OF THE NOORTH COLLECTION THROUGH CUSTOMIZED SOLUTIONS,
EVOCATIVE SCENARIOS AND TECHNICAL INSIGHTS.
A VOLUME DEDICATED TO THE CONTEMPORARY BATHROOM,
LINKED TO THE THEME OF EMOTIONS AND WELL-BEING, IN WHICH
THE NOORTH LINE OF APPEARS IN ITS ENTIRETY.

Un approccio sartoriale al progetto bagno per una collezione senza tempo, un viaggio attraverso soluzioni versatili e improntate alla massima funzionalità. Una collezione caratterizzata dall’esclusività dei materiali, dall’equilibrio dei volumi e da approfondite ricerche cromatiche; una proposta esclusiva, dai dettagli sofisticati, in cui la qualità delle lavorazioni, la ricca offerta di soluzioni e la capacità di interpretare le esigenze di contesti differenti permettono di reinterpretare la tradizione della stanza da bagno attraverso un linguaggio nuovo: una perfetta sintesi di stile e progetto. Tra memoria e modernità, tecnologia e artigianalità e tra versatilità compositiva e ricerca formale, la proposta Noorth si sviluppa in 12 collezioni nelle quali l’essenzialità delle linee viene esaltata dalle texture irripetibili dei marmi e delle essenze, dalla nuova ed esclusiva palette dei laccati, dalla trasparenza assoluta dei cristalli e dalla lucentezza dei metalli. Un attento studio sui materiali, sugli abbinamenti cromatici e sulle materie prime, permettono la realizzazione di progetti completi e definiti, offrendo prodotti sempre unici e esclusivi.

A custom approach to bathroom design for a timeless collection, a journey through versatile solutions based on maximum functionality. A collection characterised by the exclusivity of the materials, by the balance of the volumes, and by in-depth research into colour; an exclusive proposal, with sophisticated details, where the work quality, the wide range of solutions, and the ability to interpret the needs of different contexts make for a reinterpretation of the bathroom tradition through a new language: a perfect synthesis of style and design. A perfect blend of memory and modernity, technology and craftsmanship, and with versatile compositions and formal research, the Noorth proposal is structured in 12 collections where simple lines are enhanced by the unique textures of the marble and veneers, the new and exclusive palette of lacquers, the absolute transparency of crystals and the shine of metals. A careful study of materials, colour combinations, and raw materials for the creation of complete and distinctive projects, offering unique and exclusive products.

Solid Warm Volumes Home

Franq nasce dall’intersezione di due idee: estendere il calore della zona notte all’ambiente bagno e ripensare il contenimento come qualcosa di visivamente espressivo. Il risultato è una collezione dallo stile preciso, che si ispira all’eleganza sobria di Jean-Michel Frank, il cui lavoro ha padroneggiato l’arte dell’apparente semplicità. Franq celebra la matericità del legno, la setosa levigatezza del Cristalplant e la profondità delle raffinate tonalità laccate. Insieme, definiscono atmosfere calde e composte, estensioni dello spazio personale, plasmato da sobrietà e grazia senza tempo.

Franq is conceived at the intersection of two ideas: bringing the warmth of the bedroom into the bathroom, and redefining storage as a visually expressive element rather than a neutral volume. The result is a collection with a precise and confident design language, inspired by the understated elegance of Jean-Michel Frank, whose work masterfully embodies the art of apparent simplicity. Franq celebrates the richness of wood, the silky tactility of Cristalplant, and the depth of refined lacquered finishes. Together, they shape warm, composed interiors, spaces that feel lived-in, where the bathroom becomes a natural extension of the home, defined by restraint and timeless elegance.

Beta

design CR Noorth

Pensato per garantire semplicità e immediatezza in fase di progetto, Beta si distingue per la linearità del disegno e la varietà dei componenti. Caratteristiche alla base di una libertà compositiva in grado di rispondere alle esigenze d’arredo di ambienti bagno diversi, anche di piccole dimensioni. Dotato di una struttura tecnica essenziale, Beta associa funzionalità ed efficienza ad una naturale flessibilità sul piano stilistico, grazie ad un’ampia gamma di accessori e finiture.

Designed to ensure simplicity and immediacy during the planning phase, Beta stands out for the clean lines of its design and the versatility of its components. These qualities form the basis of a compositional freedom capable of meeting the furnishing needs of a wide range of bathroom spaces, including smaller ones. Featuring an essential technical structure, Beta combines functionality and efficiency with a natural stylistic flexibility, thanks to a wide range of accessories and finishes.
